DETAILED ACTION

Election/Restrictions

Applicant's election without traverse of invention I in Paper No. 8 is acknowledged and made final.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 11, 18, 25, 33, and 40 are rejected under 35 U.S.C. 102(b) as being anticipated by COOK (U.S. Pat. # 5,916,585).

As to claims 1, 11, 18, 25, 33, and 40, COOK (Fig. 3, for example) discloses 1st layer/coating 34 and 2nd layer/coating 38 of polymeric materials containing bioactive agent 39 such as heparin, urokinase, etc...(see column 6, lines 45-53) applicable for stents/grafts (column 6, lines 45-49). The cross-linking between the coating and the bioactive agent can be realized by irradiation (column 12, lines 3-5).

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 2-10, 12-17, 19-24, 26-32, and 34-39 are rejected under 35 U.S.C. 103(a) as being unpatentable over COOK (U.S. Pat. # 5,916,585). Claims 2-10, 12-17, 19-24, 26-32, 34-39, and 49 lack an inventive step under PCT Article 33(3) as being obvious over COOK (5,916,585).

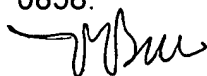

As to claims 2-10, 12-17, 19-24, 26-32, and 34-39, the stent as recited in the claims (wire stent, laser cut stent) are well known in the art. It would have been obvious to one of ordinary skill in the art to provide a stent as claimed because the stent as claimed is well known in the art and available for users from the stent market.
